

KRISHNA KUMAR

Software Engineer (Python / Django)

India | +91 8840420471 | rockkrishnakumar@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of professional experience, including recent hands-on experience building scalable, security-focused enterprise applications using **Python, Django, FastAPI, Django REST Framework (DRF), REST APIs, Django ORM, and SQL Server**. Experienced in developing both backend and frontend applications across **GRC, CRM, HRMS, Consent Management, and Regulatory Compliance platforms**. Skilled in **REST API development, JWT Authentication, authentication and authorization, RBAC, workflow automation, Redis caching, Celery, RabbitMQ, Pandas, SQL optimization, dashboards, and reporting solutions**.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, HTML, CSS

Backend & Frameworks: Django, Django REST Framework (DRF), FastAPI, Django ORM, RESTful APIs, API Integration

Frontend: JavaScript, AJAX, jQuery, Bootstrap, HTML, CSS, Fetch API

Databases: SQL Server, MySQL, PostgreSQL, Query Optimization

Cloud & Deployment: AWS EC2, AWS S3

Caching & Asynchronous Processing: Redis, Celery, RabbitMQ

Data, Analytics & Reporting: Pandas, Highcharts, Apache ECharts, Dynamic Dashboards, Reporting

System Design: Microservices, Event-Driven Architecture, Caching, Load Balancing, Rate Limiting

Security & API: JWT Authentication, RBAC, Authentication, Authorization, Validation, API Versioning

Testing & Tools: Selenium WebDriver, PyTest, Regression Testing, Git, GitHub, Postman, VS Code, ChatGPT, Claude

PROFESSIONAL EXPERIENCE

Software Engineer (Python / Django)

[Softcart Solutions, Noida](#)

June 2026 – Present

- Develop enterprise business applications using **Python, Django, Django ORM, REST APIs, JavaScript, AJAX, HTML, CSS, and Bootstrap**, supporting multiple business modules.
- Work on **CRM, HRMS, Consent Management, and Regulatory Compliance applications** with **workflow-driven processes, approvals, notifications, authentication, and RBAC**.
- Develop **RESTful APIs**, backend business logic, validations, database operations, **API integrations**, and **reusable application components**.
- Implement **reusable components** and optimized business logic, improving feature delivery efficiency by approximately **30%**.
- Implement **Redis caching** and **Celery-based** background processing for asynchronous tasks, improving application responsiveness by approximately **25%**.
- Use **Pandas** for data processing, analysis, and **reporting**, reducing manual data preparation effort by approximately **30%**.
- Optimize **SQL Server queries** and **Django ORM operations**, improving database-driven response performance by approximately **20%**.
- Develop **responsive frontend and backend** features across **CRM and HRMS** workflows, reducing manual business-process handling by approximately **25%**.

Junior Software Engineer (Python / Django)

[Whitehats Technologies Pvt. Ltd., Noida](#)

Jan 2025 – May 2026

- Developed enterprise **GRC applications** using **Python and Django**, including **Circular Management, Asset Management, Survey Management, and Task Management** modules.
- Designed and developed **RESTful APIs** using **Django REST Framework (DRF)** and **FastAPI with JWT Authentication, RBAC, pagination, API versioning, exception handling, and request validation**.
- Built **workflow automation** and **approval systems** supporting enterprise regulatory compliance processes.
- Developed **responsive frontend modules** using **HTML, CSS, Bootstrap, JavaScript, AJAX, and Fetch API**.
- Built interactive **dashboards and reporting solutions** using **Highcharts and Apache ECharts** for compliance metrics and analytics.

- Optimized **SQL queries** and implemented **Redis caching**, reducing average response time by an estimated **70%**.
- Integrated **RabbitMQ** with **Celery** for asynchronous processing, **notifications**, and **report generation**, improving system throughput by an estimated **40%** under load.
- Deployed and hosted application infrastructure on **AWS using EC2 and S3**, supporting **1000+ concurrent users**.
- Built **Selenium-based regression** and cross-browser **test scripts**, increasing test coverage by **75%** and reducing manual QA effort by an estimated **55%**.
- Used **Pandas** to analyze GRC compliance **data** and generate **reports**, reducing manual reporting effort by **30%**.

WordPress Developer (Web Developer)

Whitehats Technologies Pvt. Ltd., Noida

May 2022 – Dec 2024

- Managed and maintained 10+ WordPress websites, handling frontend development and website enhancements.
- Developed and customized WordPress themes, plugins, and website features using HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Implemented new features, fixed bugs, optimized website performance, and ensured mobile responsiveness and cross-browser compatibility.
- Performed website deployment, security updates, backups, plugin management, SEO improvements, and ongoing maintenance.

KEY PROJECTS

Compliance Foresight — GRC Management & Regulatory Compliance Platform

- Built Asset Management, Survey Management, Task Management, Circular Management, Workflow Automation, Approvals, Regulatory Monitoring, and compliance tracking modules.
- Integrated reporting dashboards and analytics for compliance monitoring and management reporting.

CRM & HRMS Management Platform

- Developed **CRM & HRMS** modules using Python, Django, REST APIs, JavaScript, AJAX, and Bootstrap.
- Implemented customer/lead, employee, task, leave/attendance, approvals, RBAC, and notifications.
- Used **Redis, Celery** for caching, background processing, data analysis, and reporting

Automation Testing Framework

- Built a Selenium-based Python automation framework for functional and regression testing of enterprise web applications.
- Automated repetitive test scenarios and generated test execution reports using reusable test scripts.

Consent Management & Regulatory Compliance Management

- Developed modules for **Consent Management and Regulatory Compliance** using Python/Django with workflow-based business processes.
- Implemented REST APIs, role-based access, validations, status tracking, approvals, and notification workflows.
- Used SQL Server, Django ORM, Redis, Celery, and Pandas for data management, background processing, caching, and reporting.

EDUCATION

Master of Business Administration (MBA – IT)

Dr. A. P. J. Abdul Kalam Technical University, Lucknow, U.P.

Bachelor of Computer Applications (BCA)

Bundelkhand University, Jhansi

DevOps with Python

NIIT, Lucknow

CORE COMPETENCIES

Python Development • Django Development • REST API Development • Backend Development • Full-Stack Web Development • Enterprise Application Development • GRC Software Development • CRM & HRMS Development • Workflow Automation • Database Optimization • Authentication & Authorization • Dashboard & Reporting • Automated Testing
